## **Comment / Story :**

A relative of mine and his 2 beautiful little girls, ages 2 and 4, were killed this year on a 4 lane road in the United States.

A witness statement said that his car was going at "a high rate speed" as he passed the witness who was going the speed limit of 65 MPH. The witness then states that the car veered to the right and hit a parked truck on the shoulder.

All three were instantly killed....

The body of my relative was badly mutilated and was not able to be viewed....

The youngest girl's skull was left laying on the pavement...

Thankfully, the first person to stop covered up the bodies.... I feel for the people and officers who had to see this horror.

A mother has lost both of her children and her husband.

Her mother-in-law lost her only son and 2 of her 3 grandchildren.

What a horrible tragedy. We don't really understand what happened but this is a good reminder to always pay attention and slow down at least a little.

Thank you for your courage in writing me. To everyone reading this – the person who sent me this email also gave me the names of the dad and children for “confirmation of truth”. It's sad that I have to say this – but I have “confirmed” the truth of this email.... Please – use this story – give it to someone who you know it will hit “home” with. MAKE something good come of this tragedy..... And applaud the person who had the strength to tell us their story.
