## Comment / Story :

Many years ago, a friend's uncle lost his wife in a traffic accident - while their young child sat in his child/safety/seat strapped in the rear seat of the vehicle. I met him many years later at a wedding. We talked about what happened, and he expressed to me that he would like to thank the EMS and Firefighters who cut his son out of the car and saved his life. I contacted the fire department, many years after the accident, and, they remembered the child's name. I only told them why I was calling, and where the accident happened, gave them no names, yet when I told them the location of the accident, he said to me " you must be talking about little Liam " ...

Comment from Auntie Karen :

I think I'll take this time simply to thank all those EMS, Police, Firefighters and private citizens that stop to help. You are important to us, appreciated, and recognized as life savers!
